Offer The Hope Of Christ

But Peter said, "I have no silver and gold, but what I do have I give to you. In the name of Jesus Christ of Nazareth, rise up and walk!"

- Acts 3:6

This is Peter's response when a man who was lame from birth asked him for alms at the entrance of a temple. Peter's response would at once reject the only thing that the man was asking for and disappoint him. However, it is worthy to note that Peter did have something more to offer - the healing in the name of Jesus. Therefore, Peter's response is not about the choice between material or immaterial needs; both are important to the man. It is about the priority of God's people. While many watch anxiously and fearfully at the COVID-19 pandemic, Jesus Christ has a hope to offer. What is our response in such a time as this? What is your priority? We can offer something more as Christians such as our prayers and service to the community. Let us not lose focus in the midst of this crisis but all the more offer the hope of Christ.

Prayer Pointers for Covid-19

1. Give thanks to God for the effective damage control against the spread of the Covid-19 in many parts of the world resulting in the easing of their restrictive measures, and business and work gradually returning to normalcy.
2. Give thanks to God that the transmission rate of the Covid-19 has dwindled in many nations; that the people are aware of the social responsibilities and their duties to prevent further recurrence of the spread of the virus.
3. Pray that the Lord will heal those who are recuperating, comfort those who have suffered loss of someone to the deadly virus and strengthen those who are providing medical support to the infected patients.
4. Pray that the Lord will revitalize the economy of the world; bless the world with His abundance and shower His peace upon the world so that the governments of the world will focus on the rebuilding of their nation and their economy.
5. Pray the leaders of the world will be wiser and better organized to fight off any type of virus pandemic in the future, able to share resources to keep the economy of the world going and work together for world peace.
